SUMMARY

Highly motivated and detail-oriented BCA graduate seeking an entry-level Software Engineer position. Proficient in C, C++, JavaScript, React, and SQL with a strong foundation in web development principles. Eager to contribute to innovative projects and enhance technical skills within a collaborative environment.

SKILLS

C, C++, JavaScript, SQL, HTML, CSS, React, Data Structures, Algorithms, Git, REST APIs, Agile Development, English, Hindi

PROJECTS

Weather App - Developed a responsive Weather App using React to fetch and display real-time weather data. Implemented features including temperature, wind speed, and humidity updates. Integrated a map for location visualization and utilized an AI-based service for location information. Achieved a 20% reduction in initial loading time through optimized data fetching techniques.

Movie Search Engine - Created a Movie Search Engine to retrieve and display movie information based on user input. Utilized REST APIs to fetch data from a movie database, improving search efficiency by 15%. Technologies used include: HTML, CSS, and JavaScript.

EDUCATION

BCA DAV COLLEGE	Jan 2023 - Jan 2026
12th class, NON-MEDICAL GSSS DHEERA	Jan 2022 - Jan 2023
10th class Gyandeep Public school	Jan 2020 - Jan 2021
